**OFAC Screening
July 2012**

OFAC Screening

- The Office of Foreign Asset Control (OFAC) administers the sanctions and embargo programs on the Specially Designated Nationals (SDN) list of “blocked parties”
 - Countries
 - Individuals
 - Companies

ITS.gov's Role

- Ensures compliance with OFAC regulations for all international payments issued by Treasury
- All payments will be scanned real-time on an intra-day basis against three publicized OFAC lists
 - OFAC Specially Designated Nationals (SDN)
 - Non-SDN
 - Sanctioned countries list

ITS.gov's Role

- OFAC investigations for individuals deemed false positives are added to the ITS White List
 - False Positive – An individual identified in the payment whose name may match an entry on one of the OFAC lists, but the accompanying personal data does not match
 - White List – A database of false-positive recipients and their uniquely identifiable information. ITS maintains this list to ensure straight through processing of future payments

ITS.gov's Role

- OFAC requires that ALL payment information be screened – not just the beneficiary name
- Payments can be stopped due to any information included in the payment matching an SDN list
 - Country reference
 - Country name
 - Contact information
