To: Heads of Government Departments, Agencies, and Others Concerned

1. Purpose

This transmittal letter releases new TFM Volume I, Part 4A: Payment-Related Activities Within the Authority Granted to the U.S. Chief Disbursing Officer (CDO). It prescribes procedures for payment-related activities within the CDO’s authority and includes the following chapters:

- Chapter 1000—Introduction
- Chapter 2000—Overall Disbursing Rules for All Federal Agencies
- Chapter 3000—Requirements for Scheduling Payments Disbursed by the Financial Management Service (FMS)
- Chapter 4000—Requirements for Non-Treasury Disbursing Officers (NTDOs)

2. Rescission

This transmittal letter also rescinds the following TFM Volume I releases:

David A. Lebryk
Commissioner
Part 4A—Chapter 3000

REQUIREMENTS FOR SCHEDULING PAYMENTS DISBURSED BY THE FINANCIAL MANAGEMENT SERVICE (FMS)

This chapter prescribes requirements for disbursing transactions, and scheduling and classifying domestic and international payments that FMS disburses, as authorized by the Department of the Treasury (Treasury).

Section 3010—Scope and Applicability

This chapter includes procedures and forms needed to:

- Inform FMS of the Head of Agency;
- Delegate designation authority to designating officials;

AND

- Designate individuals to the positions of certifying officers (COs) for the Secure Payment System (SPS) and the Automated Standard Application for Payments (ASAP); SPS Data Entry Operators (DEO); and designated agents.

This chapter only applies to those agencies for which FMS provides disbursing functions.

Section 3015—Authority

31 U.S.C. 3321

Section 3020—Definition of Terms

Accommodation Exchange Transaction—The authorized exchange of equivalent monetary values in different forms to authorized persons, for example, foreign currency in exchange for U.S. dollar check(s).

Accountable Officer—A U.S. Government official or employee who, on behalf of the United States, receives and maintains public funds, certifies vouchers, or maintains or draws checks on accounts of the United States, including those in depositary banks designated by the Secretary of the Treasury.

Agency—Includes each Federal agency certifying payment voucher-schedules to Treasury Regional Financial Centers (RFCs) for payment, and each Federal agency using ASAP.

Agency Location Code (ALC)—A numeric symbol used to identify Federal agency accounting stations and Treasury’s RFCs. The ALC consists of an eight-digit agency accounting station code or a four- or three-digit number indicating a specific Treasury RFC. To make disbursements, Federal agencies must have an ALC that is designated for disbursement and has been activated at a minimum of at least 1 business day in advance of submission of a payment file.

Bank Balance—The actual balance of U.S. Government funds held in accounts in financial institutions (as opposed to the checkbook balance).

Delegation—Documentation submitted to FMS by an agency, usually by means of FMS 2958: Delegation of Authority, notifying FMS of the delegation (transfer) of authority to make designations of disbursing-related authority. The right to further delegate (redelegate) such authority also may be included in such delegations.

Designated Depositary—A financial institution designated by Treasury to maintain specified U.S. Government accounts in specified foreign countries and in U.S. territories and possessions.

Designating Officials—Individuals for whom a Head of Agency delegation has been presented to FMS, and individuals to whom designation authority has been delegated by the Head of Agency or other official to whom designation authority has been delegated.

Designation—Documentation submitted to FMS by an agency, usually by means of FMS 210 series forms (see the definitions below), notifying FMS of the selection or appointment of an individual to perform a specific disbursment-related function.

Effective Date of Delegation/Designation—Date from which FMS calculates the period until the delegation or designation expires, normally 2 years. It is the latter of the effective date requested by the agency on the form or the date FMS accepts the form. For example, if the agency requests an effective date of March 3, 2012, and FMS actually accepts the form on March
7, 2012, the effective date would be March 7, 2012. If the agency requests an effective date of May 20, 2012, and FMS accepts the form on May 5, 2012, the actual effective date would be May 20, 2012.

**FMS 210 Series Forms**—A series of FMS forms used to designate specific individuals to perform specific disbursement-related functions. These forms include:

- FMS 210CO: Designation for Certifying Officer;
- FMS 210DA: Designation for Agent To Receive and Deliver Checks;
- AND
- FMS 210DEO: Designation for SPS Data Entry Operator.

**Foreign Currency**—Any currency other than the U.S. dollar.

**Foreign Exchange**—The system by which one currency is exchanged for another. This enables international transactions to take place.

**Head of Agency**—When used in relation to delegations of authority, interpreted to mean the head of an executive agency, as appointed by the President of the United States. Heads of Agencies may include secretaries of departments, administrators of administrations, and commissioners of commissions. At the discretion of Treasury’s Chief Disbursing Officer (CDO), Head of Agency delegations may be accepted from lesser authorities in an agency, such as bureau heads and agency and/or bureau Chief Financial Officers (CFOs).

**Prevailing Rate of Exchange**—The most favorable rate legally available to the U.S. Government for the acquisition of foreign exchange for U.S. Government official disbursement and accommodation exchange transactions.

**Spot Rate**—The price of foreign currencies for delivery in 2 business days.

**Standard Form (SF) 1195: Recommendation for Designation and Revocation of Agent To Receive and Deliver Checks and Savings Bonds**—Used to designate designated agent(s), by position title, to receive and deliver checks.

**Unfunding**—The authorized borrowing by an accountable officer of restricted foreign currency from specific agency program accounts for the purpose of meeting current U.S. Government obligations, and replacing the foreign currency when needed for the purposes for which it was originally set aside. (31 U.S.C. § 5303)

**Value Date of Foreign Currency Purchase**—The date when the foreign currency proceeds of a commercial purchase are available in the form of cash or are deposited and credited to the accountable officer’s operating account at a financial institution designated by Treasury.

---

**Section 3025—Head of Agency Delegation**

The Head of Agency uses a self-delegation to provide FMS with a basis for validating all subsequent delegations and designations from that agency. The Head of Agency self-delegation is accomplished using FMS 2958: Delegation of Authority. All authority to expend agency funds, and to certify the disbursement of such funds through a Treasury disbursing office, resides with the Head of Agency of the agency for which funds are to be disbursed. The Head of Agency may delegate the authority to certify the disbursement of agency funds to a duly designated CO. The authority to delegate certification authority also may be delegated to duly assigned individuals. No delegating official, other than the Head of Agency, may self-designate himself or herself as a CO or make any other disbursing function self-designation for the agency. Head of Agency delegations automatically have all delegation and designation authorities listed on the FMS 2958.

Use the FMS 2958 to submit the Head of Agency delegation. The agency must submit the Head of Agency FMS 2958 with a signed transmittal letter, bearing the official agency seal, indicating that the individual is the Head of Agency.

Head of Agency delegations are valid for a period of 2 years from the effective date, unless revoked earlier.

When a Head of Agency delegation expires or is revoked, this action has no effect on the delegations and/or designations that were made by the Head of Agency while the delegation was valid. For example, if a properly designated Head of Agency signed an FMS 210CO designation on April 4, 2008, and subsequently left and ceased to be the Head of Agency on April 6, 2008, the CO designation would remain valid for the normal 2-year effective period.

When an individual for whom a Head of Agency delegation is on file with FMS departs the Head of Agency assignment, or otherwise becomes ineligible (through reassignment, retirement, death, etc.) to act as the Head of Agency for disbursement purposes, the succeeding Head of Agency should submit an FMS 2958 to FMS revoking the Head of Agency delegation of the departing or ineligible designee. Alternatively, the departing Head of Agency may submit the revocation. The agency must complete and submit to FMS a separate FMS 2958 for the new Head of Agency.

For expiration, revocation, and renewal information, see Sections 3070 and 3075, respectively.

---

**Section 3030—Delegations of Designation Authority**

Delegations of designation authority are made to individuals designated to exercise designation authority for the Head of Agency. Such delegations must be for specific authorities as noted on the FMS 2958. For each authority delegated, the agency must specify whether the authority may or may not be redelegated. No delegating official, other than the Head of Agency, may self-designate himself or herself as a CO for the agency.
Section 3035—Non-Head of Agency

A non-Head of Agency is an individual who has been delegated authority by the Head of Agency to designate COs.

Use the FMS 2958 to delegate authority to a non-Head of Agency. Completion of FMS 2958 for a non-Head of Agency is identical to completion of FMS 2958 for Head of Agency, except the individual signing the FMS 2958 as a delegator must have a valid FMS 2958 on file with FMS with redelegation authority for the functions being delegated (that is, the FMS 2958 that delegated authority to the individual submitting additional FMS 2958 and FMS 210 series forms must have authorized the delegation).

Non-Head of Agency delegations are valid for a period of 2 years from the effective date, unless revoked earlier. The handling of expiration and revocation of non-Head of Agency delegations is identical to that of Head of Agency delegations.

Section 3040—Designation of CO

COs are individuals to whom authority to approve disbursement of agency funds has been delegated by a properly authorized designating official. The designating official must have a valid FMS 2958 on file with FMS providing authority to designate COs for the agency. Officials, other than Heads of Agencies who are delegated designation authority for COs may not designate themselves as COs. When it is necessary for such an individual to be designated as a CO, a different, currently authorized designated official with a valid FMS 2958 on file with FMS must make the designation.

Note: COs authorized to certify payments to Treasury may not be designated as SPS DEOs for the same ALC (that is, a DEO and a CO may not be the same individual for the same ALC).

Use the FMS 210CO to designate agency COs. Enter at least one ALC in Section I of the FMS 210CO. In all cases, the ALCs listed on the form must correspond to the department, agency, and bureau or office for which the delegator or designator shown in Section IV of the forms has authority to delegate or designate.

A CO designated with SPS, ASAP, or International Treasury Services (ITS) authority is issued a Public Key Infrastructure (PKI) credential. SPS, ASAP, and ITS have application specific requirements for obtaining PKI credentials. Once the PKI is issued, the CO can use it in all payment applications (SPS, ASAP, and ITS). For additional information on SPS see Section 3085. For additional information on ASAP and ITS requirements, see subsections 30115.10a and 30115.10e, respectively.

Note: SPS, ASAP, and ITS, are level 3 “Medium” level of assurance (physical/hand devices).

At the time of designation, the agency should advise the CO of his or her legal responsibilities to certify voucher-schedules according to 31 U.S.C. § 3521, as amended and as outlined in the FMS publication, Now That You’re a Certifying Officer (http://www.fms.treas.gov/tfm/vol1/CertifyingOfficer.pdf).

Disbursing officers (DOs) may not accept payment voucher-schedules from a newly designated CO until the effective date of the FMS 210CO for that CO. DOs may accept for payment only those payment voucher-schedules that contain the same organizational designation ALC and CO’s manual signature as those shown on the CO’s FMS 210CO. For payment voucher-schedules submitted using SPS, DOs may accept for payment only those payment voucher-schedules containing the same organizational designation ALC as those shown on the CO’s FMS 210CO, as well as the valid electronic signature of the CO. In all cases, the ALC listed on the payment voucher-schedules must correspond to the department, agency, or establishment, and bureau or office shown on the FMS 210CO for that CO.

CO designations are valid for a period of 2 years from the effective date, unless revoked earlier.

For expiration, revocation, and renewal information, see Sections 3070 and 3075, respectively.

Section 3045—Designation of SPS DEO

An SPS DEO is an individual to whom authority to create and modify SPS payment requests to Treasury’s RFCs has been delegated by a properly authorized designating official with a valid FMS 2958 on file with FMS.

Note: An individual may not be designated as both an SPS DEO and a CO for the same ALC.

A DEO designated with SPS authority is issued a PKI credential. SPS has application specific requirements for obtaining PKI credentials.

For expiration, revocation, and renewal information, see Sections 3070 and 3075, respectively.

Section 3050—Designation of Designated Agent To Receive and Deliver Checks

Designated agents are individuals to whom authority is delegated to receive and deliver Treasury checks drawn on agency funds. Treasury prefers that agencies schedule all payments to be made by Direct Deposit to recipients’ accounts instead of paper checks. However, under some circumstances, it may be necessary for an agency to pick up or receive checks from a Treasury RFC, upon DO approval, for direct delivery to the payee/recipient.

Use FMS 210DA to designate a specifically named designated agent to receive and deliver checks for the agency. Before submitting the FMS 210DA, the agency must arrange for delivery/pickup of checks for the
designated agent with the Treasury RFC that will issue the checks.

The agency should enter the ALC corresponding to the department, establishment, or agency, and the bureau or office for which the designated agent will receive checks. When an individual is designated to receive checks for another organization, a separate FMS 210DA is required for that department or bureau.

At the time of designation, the agency should advise the designated agents of their legal and ethical responsibilities.

For FMS 210DA, the designated agent designations are valid for a period of 2 years from the effective date, unless revoked earlier. Designations not renewed by their expiration date are void as of that date, and that individual will no longer be allowed to receive checks on behalf of the agency.

For expiration, revocation, and renewal information, see Sections 3070 and 3075, respectively.

Section 3055—Designation by Position Title

Note: SF 1195 is discussed here only for the purposes of designating a particular position as an agent to receive and deliver checks issued by FMS.

Use the SF 1195 to designate a particular position as a designated agent to receive and deliver checks. SF 1195 is available electronically. See the appendices listing for an electronic link to the SF 1195.

It is critically important that the submitting agency accurately and completely fill in all applicable sections of the SF 1195. All signatures must be in black, nonerasable ink, and must be the official signature of the individual signing. Do not use nicknames. The signatures must be constrained to the blocks provided with no extraneous markings.

Before submitting the SF 1195, the agency must arrange for delivery/pickup of checks by the designated agent with the Treasury RFC that will issue the checks. The submitting agency must complete Section I, as follows:

- Enter the name and location of the disbursing office that will be releasing checks to the designated agent.
- Enter the ALC(s) for which checks will be delivered by the designated agent.
- Enter the position title, agency, and address of the designated agent.
- Select the Checks block.
- An authorized designating official, with an active FMS 2958 on file with FMS, must sign the form as the recommending officer.
- The agency should:
  - Retain a copy. This may be a Portable Document Format (PDF) version of the signed form.
  - Forward the original signed form to FMS (see the address on the Contacts page).
- Upon receipt, FMS:
  - Verifies the designation;
  - Enters the name of the current incumbent of the position;
  - Signs the form;
- Returns a photocopy of the signed form to the designating official, at the address provided in Section I of the form, with an acceptance label affixed to the back.

The agency’s receipt of the photocopy of the completed form from FMS signifies FMS’s acceptance. After receiving the photocopy, the designating official should verify the contents of the photocopy of the form returned by FMS against the retained photocopy to ensure that no alterations occurred. FMS also sends a photocopy of the accepted SF 1195 to the Treasury RFC that will issue the checks.

Note: The designating official should provide a copy of the completed SF 1195 to the incumbent of the position designated as a designated agent. At the time of designation, the agency should ensure that designated agents are advised of their legal and ethical responsibilities.

For SF 1195s that are rejected, FMS returns the original form to the designating official, at the address provided in Section I of the form, with a rejection label affixed to the back of the form and a rejection report explaining the reason for rejection.

The designated agent, by position title, designation is valid until revoked. When a designated agent, by position title, designation is no longer required, the responsible designating official should send an SF 1195 revoking the designation of the position title designation to FMS (see the Contacts page). FMS processes the revocation and sends a photocopy of the revocation to the Treasury RFC at which the checks were picked up. Revocations are effective on the latter of the effective date requested by the agency on the form or the date that FMS receives and processes the revocation.

When using the SF 1195 to document a revocation, the submitting agency must complete Section I of the form.

Section 3060—General Form Instructions for Delegations and Designations

All forms are available electronically. See the appendices listing for electronic links to these forms. (See Appendices 1 through 5 for sample copies of the forms and instructions.)

Agencies use FMS 2958 to establish the Head of Agency authority and to delegate designation authority. They use the FMS 210 series forms to designate individuals to perform specific disbursing-related functions.

FMS uses the FMS 2958 and FMS 210 series forms as sources of sample signatures for signature validation. FMS
stores optically scanned electronic images of sample signatures for use by all Treasury RFCs. Also, these forms may be used for manual validation of certifying signatures on payment voucher-schedules.

Consequently, it is critically important that the submitting agency accurately and completely fill in all applicable delegation and designation forms. Agencies must complete forms in the following manner:

- The individual to whom authority is being delegated or who is being designated must manually sign all four signature blocks on the delegation or designation forms in black, nonerasable ink.
- All delegation and designation forms must bear four original manual signatures.
- All signatures must be the official signature of the authorized individual. Do not use nicknames.
- The signatures must be constrained to the blocks provided with no extraneous markings. FMS rejects forms with facsimile signatures or any evidence of erasures, corrections, or alterations.
- The delegator or designee block in Section IV must be signed by the Head of Agency or other official who has been lawfully delegated delegation or designation authority for the function being delegated or designated.
- The delegator or designee signature must be in black nonerasable ink and must be wholly within the signature block provided with no extraneous markings.

After completing the form, the agency should:

- Retain a copy. This may be a PDF version of the signed form.

**AND**

- Forward the original signed form to FMS (see the Contacts page, or the top left-hand corner of the form, for the address to use).

**Note:** For Head of Agency delegations, agencies must submit the FMS 2958 with a signed transmittal letter, bearing the official agency seal, indicating that the individual is the Head of the Agency.

On receipt, FMS verifies the delegation or designation. If the form is accepted, FMS:

- Signs the form.
- Makes a copy. This may be a PDF version of the signed form.
- Affixes an acceptance label to the back of the form (except for Head of Agency delegations, which do not have an acceptance label but are signed in Section VI).

**AND**

- Returns the form to the delegator or designee at the address provided in Section V of the form.

The agency’s receipt of the completed form from FMS signifies FMS’s acceptance. After receiving the form, the delegator or designee should verify the contents of the photocopy returned by FMS against the retained photocopy to ensure that no alterations occurred.

At the time of designation, the agency should advise the designees of their responsibilities as noted in applicable Treasury directives and outlined in the FMS publication, *Now That You’re a Certifying Officer* ([http://www.fms.treas.gov/tfm/vol1/CertifyingOfficer.pdf](http://www.fms.treas.gov/tfm/vol1/CertifyingOfficer.pdf)).

**Section 3070—Expiration and Revocation**

Delegations and designations are valid for 2 years unless revoked earlier. Two months before expiration of the delegation or designation, FMS notifies the delegator or designee of the pending expiration of the delegation or designation by mailing a Letter of Notification of Pre-Expiration to the address listed in Section V of the FMS 2958 or FMS 210 series form that documented the delegation or designation.

Delegations and designations not renewed by their expiration date become void as of that date, and no further delegations or designations, certifications, etc., will be accepted from the individual. FMS notifies agencies of expired delegations and designations via a Letter of Notification of Expiration mailed to the delegating or designating official at the address provided in Section V of the original delegation or designation form. Once a delegation or designation expires, the agency must submit a new delegation or designation form to FMS to reinstate the authority for that individual.

When an individual for whom a delegation or designation is on file with FMS departs or otherwise becomes ineligible to act (including through reassignment, retirement, departure, death, etc.), a responsible delegating or designating official should forward to FMS the appropriate FMS 2958 or FMS 210 series form revoking the delegation or designation of the departing or ineligible designee. Revocations are effective as of the latter of the effective date requested by the agency on the form or the date FMS accepts the revocation form.

**Section 3065—Rejections**

FMS returns FMS 2958s that fail FMS verification to the submitting agency with an explanation for the rejection.

For FMS 210 series forms that are rejected, FMS returns a copy to the designating official, at the address provided in Section V, with a rejection label affixed to the back of the form and a rejection report explaining the reason for rejection.

**Section 3070—Expiration and Revocation**

Delegations and designations are valid for 2 years unless revoked earlier. Two months before expiration of the delegation or designation, FMS notifies the delegator or designee of the pending expiration of the delegation or designation by mailing a Letter of Notification of Pre-Expiration to the address listed in Section V of the FMS 2958 or FMS 210 series form that documented the delegation or designation.

Delegations and designations not renewed by their expiration date become void as of that date, and no further delegations or designations, certifications, etc., will be accepted from the individual. FMS notifies agencies of expired delegations and designations via a Letter of Notification of Expiration mailed to the delegating or designating official at the address provided in Section V of the original delegation or designation form. Once a delegation or designation expires, the agency must submit a new delegation or designation form to FMS to reinstate the authority for that individual.

When an individual for whom a delegation or designation is on file with FMS departs or otherwise becomes ineligible to act (including through reassignment, retirement, departure, death, etc.), a responsible delegating or designating official should forward to FMS the appropriate FMS 2958 or FMS 210 series form revoking the delegation or designation of the departing or ineligible designee. Revocations are effective as of the latter of the effective date requested by the agency on the form or the date FMS accepts the revocation form.
When using the FMS 2958 or FMS 210 series form to document a revocation, the submitting agency must complete Sections I, II, IV, and V of the form. Revocation forms do not require sample signatures of the individual whose authority is being revoked (Section III), but they must be signed in Section IV by the Head of Agency or other official who has been lawfully delegated designation authority for the function being revoked.

Section 3075—Renewals of Delegations and Designations

Agencies may renew delegations and designations by submitting the appropriate FMS 2958 or FMS 210 series form with the Re-Delegation or Re-Designation block checked. FMS does not accept photocopies of a previously submitted FMS 2958 or FMS 210 series form with the Re-Delegation or Re-Designation block checked.

Alternatively, agencies may renew designations of individuals (CO, SPS DEO, designated agent) that are about to expire and for which there are no changes in the details of the designation, by having an active, authorized designating official with authority to designate complete the For Renewal Only portion of the Letter of Notification of Pre-Expiration, and returning it to FMS at the address specified in the letter.

Agencies also may renew designations that are about to expire, and for which there are no changes in the details of the designation, by submitting an agency initiated Letter of Renewal, signed by an active, authorized designating official. Agency-initiated Letters of Renewal must:

- Be on the agency’s letterhead;
- Be signed by a designating official with a valid FMS 2958 on file with FMS providing designation authority for the type of designation being renewed.

Agencies may use an agency initiated Letter of Renewal to renew multiple designations at the same time. They may not use Letters of Notification of Pre-Expiration and agency initiated Letters of Renewal to renew delegations of designation authority. Delegations of designation authority may be renewed only on FMS 2958.

Agencies must renew designations for which the details have changed, or for which the designee’s signature has altered significantly since the last designation, by submitting a new original FMS 210 series form for the designee.

Section 3080—Reorganizations

FMS verifies FMS 2958 and FMS 210 series forms for signature, title, and organization. Therefore, if an organization’s name or if titles within an organization change, the agency must redelegate/redesignate authority to all affected positions. This redelegation/redesignation must be initiated at a level above the areas affected by the organizational or title changes. On such redelegation/redesignation forms:

- Check the Re-Delegation or Re-Designation block (as appropriate);
- Note the word “Reorganization” in the Name block in Section II of the form(s).

Section 3085—Certification of Payments to Treasury

3085.10—ASAP

All Federal funds in ASAP accounts are preauthorized by Federal agency COs with active records in FMS. For information on ASAP agency rules, procedures, user requirements, and format, see the FMS Web site at http://www.fms.treas.gov/asap.

3085.20—SPS

SPS is a system Federal agencies that disburse through Treasury must use to create payment voucher-schedules. This system allows designated Federal Program Agency (FPA) personnel to create, certify, and submit payment voucher-schedules to FMS over a browser/Web interface in a secure fashion with a strictly enforced separation of duties.

FPAs are required to use SPS to create payment voucher-schedules. Same-day and small-volume next-day payments initiated through SPS or ITS/RFIC, and the Payment Automation Manager (PAM) large-volume or bulk files must be certified through SPS using the system-generated SPS SF 1166: Voucher and Schedule of Payments for Summary Schedule.

Two different user types are required and responsible for an FPA to submit schedules to SPS. First, a DEO with an active designation on file at FMS creates a schedule and submits the schedule for certification. Then, a CO with an active designation on file at FMS examines the schedule and, upon verification, certifies the schedule, which results in the schedule being submitted to FMS.

For information on the rules governing users, agency requirements, and file formats, see the FMS Web site at http://www.fms.treas.gov/sp/index.html.

The Government Accountability Office has approved SPS for satisfying the signature requirements for certification contained in 31 U.S.C. 3325 and 3528.

Section 3090—Governmentwide Accounting

Before October 1, 2014, agencies report payment disbursements to an appropriation on their FMS 224s: Statements of Transactions. All disbursement transactions are reported
by each FMS disbursement system to the Central Accounting and Reporting System (CARS). Disbursements are processed to the ALC provided on the payment certification. The reports contain information on each payment disbursed including U.S. dollar equivalent, wire/check number, payment amount, and settlement date. For more information, see TFM Volume I, Part 2, Chapter 3300, on the FMS Web site at http://www.fms.treas.gov/tfm/vol1/v1p2c330.pdf.

For foreign currency, agencies receive confirmation of the disbursement of foreign currency payments and the amounts of the U.S. dollar equivalent of those payments. In CARS, these foreign currency payments are coded with an “X.” Additionally, the FMS processing team mails a payment detail report for the foreign currency payments disbursed to the address of the ALC provided on the SF 1166.

After October 1, 2014, agencies must submit the CARS Treasury Account Symbol (TAS)/Business Event Type Code (BETC) reporting classification at initiation of the payment. Agencies that process file based payments to ITS.gov will be required to submit payment data using the ITS.gov standard file format. The ITS.gov standard file format will incorporate TAS/BETC information.

All Federal agencies using Treasury disbursing office services, with the exception of ASAP and ITS.gov, will be required to submit payment data using the Payment Automation Manager (PAM) standard input format. The PAM standard input format will provide TAS/BETC information.

For ASAP, agencies will be required to define a TAS distribution method for each ASAP account. Additionally, agencies will be required to define at least one TAS/BETC and one return TAS/BETC for each ASAP account. ASAP will use the TAS distribution method and TAS/BETCs defined on an account to apply TAS/BETCs for each payment drawn from the given account. Additionally, ASAP will apply the return TAS/BETC defined on an account for each returned payment credited to the given account.

Agencies are required to use a valid TAS/BETC combination and to subsequently reclassify in CARS when appropriate. The Shared Accounting Module (SAM) Web site at https://www.sam.fms.treas.gov/sampublic provides FMS reference data for TAS/BETCs.

Note: Any transaction with invalid TAS/BETCs will be rejected or classified to a default TAS/BETC that has been set up by the agency in SAM. Agencies must reclassify defaulted transactions to the proper TAS/BETC in the Classification Transaction Accountability (CTA) module of CARS by the third workday after month-end or it will negatively impact the quarterly scorecard that is sent to agencies’ CFOs.

### Section 3095—Instructions to FPAs for Emergency Certification of Payments When the SPS Is Unavailable

Periodically, an FPA may need to certify payments “manually” because either SPS is unavailable or SPS is available but the FPA cannot access it.

Procedures for emergency certification of payments apply to bulk files and summary certifications only.

The FPA requests permission from the Director, RFC, or designee, to use the manual certification procedure. After permission is received, the FPA requester sends the manual certification by fax or as a scanned file via email to the RFC. The FPA requester must have a current, valid FMS 210 or FMS 2958 on file with FMS and should be a CO or designating official. The signature must be verifiable against the signature on the FMS 210, under which the FPA requester was designated.

The RFC provides a one-time-use password to the FPA requester who signed the FMS 210CO (see the above paragraph). This one-time-use password adds a degree of security to the transaction. In addition, the requirement for password use in emergencies also can be used to rebut auditor queries. If the password is issued via email, the RFC sends it from the official FMS (@fms.treas.gov) email account to the recipient’s official Government (.gov) email account, whenever possible (some national security and law enforcement users may be unable to provide “.gov” email addresses).

If requested, FMS provides a blank SF 1166 to the FPA. The SF 1166 also is available on the SPS Web site at http://www.fms.treas.gov/sp/index.html.

The FPA submits by fax or email a completed SF 1166 with the one-time password entered in the “Password” block.

For CARS TAS/BETC reporting, the RFC encourages FPAs to use a valid TAS/BETC combination and to reclassify in CARS subsequently. The SAM Web site provides FMS reference data for TAS/BETCs. It is available on the FMS Web site at https://www.sam.fms.treas.gov/sampublic. Although the RFC normally rejects certifications if the sum of the TAS/BETCs in the certification does not match the certification total dollar amount, it does not reject emergency certifications. Agencies must ensure proper classification in their CARS account statement.

FMS rejects the SF 1166 if:

- The CO is not on file, or the signature does not match the form on file.
- The dollar and/or item count does not match the payment file.
- The password is missing or erroneous.
- Any required field (Schedule Number, Control Number, requested date of payment, ALC, at least one valid TAS/BETC) for FMS processing (Payments, Claims and Enhanced Reconciliation; Treasury Check
Information System; CARS, etc.) is missing or invalid.

- There are other errors or discrepancies at the DO’s or designee’s discretion.

Before processing files in PAM, FMS manually certifies the validity of the entries.

Section 30100—Submission of Bulk Files

PAM, a mainframe-based software application, is used to disburse payments through FMS. PAM standard format is the method for agencies disbursing payments through FMS to report TAS/BETC and other transaction information.

Agencies with payment types that have not been converted to PAM must use the legacy payment formats. However, by October 1, 2014, all agency payments must be sent through PAM.

30100.10—PAM Standard Format: Input File Specifications –
Standard Payment Request (171 kb)

30100.20—PAM Agency Connect Direct Notification:
Output File Specification –
Agency Notification (Connect: Direct) (270 kb)

Section 30105—FMS Payments Processed Through Offset

The Debt Collection Improvement Act of 1996 (DCIA), codified in pertinent part at 31 U.S.C. § 3716, requires Federal disbursing officials to withhold all or part of Federal payments made to persons who owe delinquent nontax debts in order to satisfy the debts. This process is known as “offset.” FMS has issued regulations governing offset of Federal payments to collect delinquent nontax debt at 31 CFR 285.5. Authority for collecting delinquent tax debts through the continuous levy of certain Federal payments can be found at 26 U.S.C. § 6331(h).

Note: Same-day payment requests, which also are referred to as Fedwire, are not directly offset through the Treasury Offset Program (TOP). However, SPS is required to determine if payees of same-day payment requests have active delinquent debts in the TOP database. If the tax identification number (TIN) on a Fedwire payment matches a TIN with an active delinquent debt, the creation of a same-day payment is blocked. When a same-day payment is blocked and the DEO has not indicated that the payment is not eligible for offset, the agency should proceed to recreate the payment using a different payment type (check or ACH), which can be processed through the existing offset process.

Section 30110—FPAs Requesting a Payment To Be Held, Canceled, or Intercepted

All FPAs requesting a payment to be held, canceled, or intercepted must submit the request form by fax or email using the FMS 7037: Payment Hold, Cancellation, and Intercept Request Form. At a minimum, the request must include the following items:

- The signature of the CO. The signature must be verifiable against the signature listed on the FMS 210 form series.
- Date the CO signed the request for payment to be held, canceled, or intercepted.
- Date of payment.
- Total dollar amount to be held, canceled, or intercepted.
- Number of payments.
- ALC.
- Original schedule number.
- Specific electronic payment information: payee name, payment financial institution and routing and transit number, payee account number, dollar amount, or, if applicable, payee card account information and dollar amount.

- Specific check payment information: payee’s ZIP code, name of payee, dollar amount, and payee address.

Note: There is a very limited time between receipt and processing of an agency payment request in PAM. On the date of payment, once PAM has matched a payment request and corresponding certification, a payment may not be held, canceled, or intercepted.

30115—Payment Types

30115.10—Electronic Funds Transfer (EFT) Mechanisms

Agencies should use the EFT mechanisms prescribed below to comply with the EFT provisions of 31 CFR Part 208.

30115.10a—ASAP

ASAP is the replacement for the letter-of-credit funding technique, which is no longer used by Treasury to fund advances to State and local governments, educational institutions, international institutions, and any other public or private organizations. ASAP is an all-electronic payment and information system through which organizations receiving Federal funds can draw from accounts preauthorized by Federal agencies. ASAP can also be used to make time-sensitive payments to financial agents who are performing financial services for FMS and other Federal agencies. ASAP ensures greater efficiency, effectiveness, and equity in the exchange of funds between the Federal Government and the States, as required by the Cash Management Improvement Act of 1990. Federal agencies establish and maintain accounts in ASAP to control the flow of funds to recipient organizations. Federal agencies enter spending authorizations into their ASAP accounts in accordance with their program needs and schedules, and the recipient organizations initiate payment.
requests through ASAP to meet cash needs to administer these respective programs. ASAP can be used to deliver payments by ACH or Fedwire. For more information on ASAP, see the FMS Web site at http://www.fms.treas.gov/asap.

30115.10b—Direct Deposit

Direct Deposit is Treasury’s preferred disbursement mechanism for all classes of Federal payments. Direct Deposit is an electronic payment alternative that uses the ACH network. Agencies can make payments to individuals or businesses. Payment types include Federal employees’ salaries, vendor, travel advances and reimbursements, recurring benefits, and other miscellaneous expenses. Payments to businesses often include an addendum record that provides information about the payment. The recipient uses this information to update the accounts receivable system and/or to reconcile outstanding invoices.

30115.10c—Direct Express® Debit MasterCard®

Direct Express® Debit MasterCard® is a prepaid debit card offered to Federal benefit recipients who wish to receive their benefits electronically. The debit card offers the convenience and security of using electronic transactions to spend and access money rather than using cash for purchases. Recipients do not need to have a bank account to sign up for the card. The Direct Express® Debit MasterCard® is available only to individual Federal benefit recipients. For more information on the Direct Express® Debit MasterCard®, see the Web site at http://www.usdirectexpress.com.

30115.10d—Fedwire

Fedwire is an electronic transfer system developed and maintained by the Federal Reserve that allows an agency to make payments with a same-day settlement. This payment mechanism is intended for high-dollar, low-volume payments that must be paid the same day the payment is requested. Because Fedwire is a more costly payment mechanism for both FMS and the payment recipients, TFM Volume I, Part 6, Chapter 8000, Section 8040, states that agencies should use Fedwire only for payments of $100,000 or greater and/or for emergency purposes.

30115.10e—ITS.gov

ITS.gov enables Federal agencies to issue U.S. dollar and foreign currency payments electronically using the ACH network, Fedwire, and the Society for Worldwide Interbank Financial Telecommunication (SWIFT) to nearly 200 foreign countries. Additionally, ITS.gov enables agencies to issue international U.S. dollar wire transfer payments without a corresponding U.S. financial institution. Agencies should use ITS.gov to make foreign benefit, payroll, vendor, and miscellaneous payments electronically. For more information on ITS.gov, see the FMS Web site at http://www.fms.treas.gov/itsgov.

30115.10f—Stored-Value Cards (SVCs)

SVCs are smart cards with an embedded computer chip that contain electronic monetary value. The technology eliminates coin, currency, scrip, vouchers, money orders, and other labor-intensive payment mechanisms associated with closed Government locations, such as military bases and ships at sea. Agencies should use SVC to improve cash management in these closed environments. For more information on the SVC, see the FMS Web site at http://www.fms.treas.gov/storedvalue.

30115.10g—U.S. Debit Card

The U.S. debit card is a magnetic stripe bankcard that can be used by Federal agencies to make payments to individual recipients. Agencies can load the card with any amount of value before issuing it to a recipient. Once issued to the recipient, the recipient can use the card to access cash at automated teller machines or to make purchases at point-of-sale locations. The card can be used as a disposable payment mechanism that can be discarded after a fixed amount is spent by the recipient. The card also can be used as a reloadable payment mechanism if the agency wishes to make multiple payments to the recipient on the card. Agencies can use the U.S. Debit Card to replace third-party drafts and cash for any payment except benefit payments, and/or where instant issuance is necessary, such as payments for disaster relief. For more information on the U.S. Debit Card, see the FMS Web site at http://www.fms.treas.gov/debitcard.
30125.10—Scheduling SF 1166 for Foreign Currency Payments

An SF 1166 may contain either wire payments, EFT, or check payments, but not together. A separate SF 1166 is required for each type of payment. When completing the SF 1166, clearly indicate the stated payment amount and whether the payment is to be made as a “wire payment,” an “EFT payment,” or a “check payment.”

When more than one payment is being issued in the same foreign currency, list as many payees as possible on each SF 1166. If multiple payments are required and are being issued in different currencies, create a different SF 1166 for each currency required. To initiate a wire, EFT, or check payment, use the SF 1166 form to supply FMS with the information listed in subsections 30125.10a and 30125.10b for ITS wire, EFT, and check payments, respectively. FMS rejects and returns any SF 1166 that does not include all the information listed in these subsections.

30125.10a—ITS Wire and EFT Payments

SF 1166s for ITS wire and EFT payments must include the following information:

- Bank name;
- Bank address;
- Payment currency;
- Amount;
- Invoice information/details;
- Reason for payment (required for some currencies).

30125.10b—Check Payments

SF 1166s for check payments must include the following information:

- Payee name;
- Payee address;
- Payment currency;
- Amount;
- Invoice information/details;
- Reason for payment (required for some currencies).

The U.S. dollar amount is provided yet the invoice specifies payment in a foreign currency; or
- The amount payable is for U.S. dollars to a foreign recipient (see the details in subsection 30125.30).

30125.30—Payments Requiring U.S. Dollars to a Foreign Recipient

FMS can process U.S. dollar payments electronically to foreign recipients through ITS.gov but not via check. When an invoice or bill requires payment in U.S. dollars, ensure that the request includes all the information needed by the foreign bank.

Be aware, some countries have strict local currency regulations or foreign exchange controls that prohibit exporters from receiving or accepting payment in local currency for purchase of items to be exported. Before scheduling payments, agencies should ask vendors if they may be paid in their local currency.

30125.40—Submitting an SF 1166 Request

Agencies should contact FMS to request the SF 1166 and to review their payment and currency requirements before submitting the request. To request this information, contact the FMS ITS.gov staff by calling 816-414-2100. The FMS ITS.gov staff will provide the mailing address when requested. Agencies can submit the SF 1166 for processing via an overnight mail service to allow the agency to track the signed payment request document. The original SPS SF 1166 signed by the CO must be mailed; FMS does not accept copies or duplicates.

30125.50—Rejecting an SF 1166

FMS rejects an SF 1166 if:

- The signature on the SF 1166 does not match the signature of an active CO;
The scheduling instructions provided in subsection 30125.10 are not followed.

Section 30130—Designated Depositories

FMS is responsible for designating international depositaries for the U.S. Government. FMS bases the selection on the requesting agency’s recommendation and submission of supporting documents and each bank’s compliance with Office of Foreign Assets Control (OFAC) and Anti-Money Laundering (AML) regulations. FMS reserves the right to reject or rescind a depositary designation when it believes it is in the best interest of the Treasury to do so for any reason. All agencies requiring a local currency operating account, and, in rare instances, a U.S. dollar account, must formally ask FMS to approve and designate a financial institution for that account. To be considered, a financial institution must be in compliance with all applicable OFAC requirements and AML regulations. At Treasury’s discretion, other types of legal findings against a bank will be considered as part of the review process and may be cause for denying a bank’s designation. The approval request should include, at a minimum:

- Justification for the account;
- Location;
- Name of the currency;
- Criteria that was used by the agency to determine the best bank and reasons for recommending its selection;
- Name of the bank to be designated (regardless of possible previous designations);
- Bank address;
- Name and title of the bank official and telephone number(s);
- Percentage of ownership by a U.S. bank;
- Name of the correspondent bank (if any) in the United States, the account number, and a point of contact (name, title, and telephone number);

AND

- A statement that the bank is in compliance with the provisions of this section or the reasons why it is not.

Requests for U.S. dollar accounts must include supporting documents indicating that a commitment to pledge collateral was requested from the bank recommended for selection. If the bank agrees to pledge collateral with the Federal Reserve Bank, the agency may request a U.S. dollar operating account; if the bank refuses, the agency may only request a U.S. dollar zero-balance account.

Treasury’s policy in selecting financial institutions that maintain U.S. Government operating accounts is predicated on the most beneficial banking arrangement available to the U.S. Government to transact essential business. This includes consideration of both economic and non-economic factors.

However, Treasury gives preference to U.S. financial institutions unless a local bank’s arrangement is more beneficial to the U.S. Government.

When establishing a new foreign currency operating account or seeking to change an existing account, the accountable officer should obtain all relevant information (including but not limited to pricing information) from all U.S.-owned and leading local financial institutions in the area to determine which will offer the most beneficial arrangement. A financial institution may seek to change an existing operating account at any time. An agency may seek to change an existing account to any financial institution that:

- Offers an equal or more beneficial banking arrangement than currently received;

AND

- Reflects a higher level of U.S.-ownership than the present depository.

At least every 3 years, for each account, the accountable officer should determine if it may be cost effective to obtain information from all U.S.-owned and leading local financial institutions in the area to obtain a more beneficial agreement. The process of obtaining information from the banks must be equitable with all banks submitting written information on identical questionnaires or requests for information.

In determining the most beneficial banking arrangement, the agency should follow three areas of service in descending order of importance:

- Standard operating services minimally required;
- Customary local banking practices;

AND

- Other special services that may be deemed necessary in a particular country or circumstance.

The required services will be, at a minimum:

- Capability to honor payments to payees in outlying areas;
- Processing EFT or checks (only if EFT is not available), and deposits;
- Submission of a daily or monthly bank statement as needed;
- Capability to receive and process SWIFT messages;

AND

- Acceptance of the accountable officers’ funding procedures.

In addition, the agency should consider:

- Any customary banking practices (payment of interest on the operating account, overdraft charges, waiver of miscellaneous charges, etc.) peculiar to a particular country.
• Special services a bank is willing to provide in addition to the minimum required and customary local banking services (that is, telex cost, armored car service, etc.) if more than one bank offers equivalent services.

The operating account balances (or the forfeiture of potential interest earnings on the account) are not to be used to subsidize banking services that would otherwise be funded through the appropriation process (for example, cashier services). See subsection 30145.20.

In all requests, it is of paramount importance that the agency exercise due diligence when recommending a bank for designation as a depositary. The agency must ensure the bank is a valid, financially secure, dependable, and reliable financial institution in compliance with all relevant U.S. laws and regulations to avoid losses and ensure U.S. Government funds are protected. The agency should confer with the local U.S. Embassy or consulate for assistance in determining which banks meet these criteria for consideration to maintain an operating account.

When an agency learns of a significant event affecting the designated bank (for example, the bank will be closed or taken over by another bank or by the host government, or adverse treatment of the bank by a regulatory agency), the agency must inform Treasury via the FMS Help Desk at 816-414-2100. For contact information see the Web site at http://www.fms.treas.gov/itsgov.

Section 30135—Foreign Exchange Transactions for Official Purposes

30135.10—Foreign Exchange Transactions

Accountable officers or duly authorized agents are empowered, for official purposes, subject to the provisions of TFM Volume I, Part 2, Chapter 3200, to conduct the following types of exchange transactions:

• Purchase foreign currency with U.S. dollars as required for disbursing purposes.
• Disburse payments in foreign currencies to U.S. Government creditors.
• Exchange foreign currency checks, drafts, bills of exchange, or other instruments payable in foreign currency, representing official funds for which the accountable officer is accountable, for U.S. currency, U.S. dollar checks, drafts, bills of exchange, or other instruments payable in U.S. dollars.

Unless authorized by Treasury, no accountable officer may purchase foreign currency that, together with the balance on hand at the time of purchase, would exceed the limitation set forth in subsection 30145.20.

Section 30140—Cashing Checks and Other Instruments in Foreign Countries for Accommodation Purposes

30140.10—Persons for Whom Accommodation Transactions Are Authorized

When the officer in charge at a post determines that satisfactory local banking facilities are not available to conduct accommodation transactions, accountable officers or authorized agents are empowered, subject to the restrictions contained in these procedures, to use official funds available for the following.

To pay out foreign currency for checks, drafts, bills of exchange, and other instruments payable in U.S. dollars, and to cash (for the same currency in which drawn) foreign currency checks drawn by accountable officers of the United States on official checking accounts for the accommodation of the following:

1. Members of the Armed Forces of the United States.
2. Civilian employees of the U.S. Government who are U.S. citizens.
3. Contractors and their personnel engaged in U.S. Government projects in foreign countries; any such contractors must be U.S. firms or citizens, and any such personnel must be U.S. citizens.
5. Dependents of individuals listed in 1 through 4 holding valid power of attorney.
6. Dependents of civilian employees of the U.S. Government, members of the Armed Forces of the United States, and employees of U.S. contractors and subcontractors under contract with U.S. Government agencies, upon proper identification, at safe haven posts when ordered by competent authority in the event of emergency evacuation. Such accommodation exchange transactions for all dependents of any one civilian employee, U.S. contractors or subcontractors, or members of the Armed Forces, may be for amounts allowable under the Department of State Standardized Regulations and the Joint Federal Travel Regulations (for U.S. Armed Forces).
7. Foreign nationals employed as civilian employees or under contract to the U.S. Government, or contractors or subcontractors that are U.S. firms engaged in U.S. Government projects in foreign countries, provided the checks presented by the third-country nationals are U.S. Treasury dollar checks or U.S. dollar checks issued by the contractors to third-country nationals presenting the check to be cashed.
8. Certain U.S. organizations or organizations sponsored by the U.S. Government where such exchanges:
   (a) do not violate local government
currency law; (b) promote the interest of the U.S. Government abroad; (c) do not adversely impact or impair the operations of the Embassy; and (d) are approved by the Department of State.

An example of item 8 would be to provide accommodation exchange to U.S. schools to assist them in purchasing books and other supplies not available in the country.

9. Any citizen of the United States to cash, for foreign currency, checks drawn on the U.S. Treasury, when such checks are presented by the person to whose order they are drawn, with proper identification.

In those countries where the use of U.S. dollars in the local economy is prohibited, accountable officers or authorized agents may cash dollar checks, drafts, bills of exchange, and other instruments of U.S. employees for U.S. dollars only in such amounts as may be required to make cash purchases at U.S. Government authorized facilities such as commissaries, snack bars, theaters, etc., or for the purpose of travel outside of the assigned post.

30140.20—Purchase of Foreign Currency From Individuals

The accountable officer or authorized agent may purchase foreign currency or instruments payable in foreign currency from individuals under the following conditions and limitations.

Notwithstanding the provisions of TFM Volume I, Part 2, Chapter 3200, accountable officers or authorized agents are empowered to purchase foreign currencies from U.S. Government employees before departure after termination of their foreign assignment, or if the employee receives home leave and return orders and has been authorized to sell and convert those items that need replacement before his/her return, provided that controls have been established to prevent conversion with more than one accountable officer or authorized agent.

If the amount of foreign currency presented does not exceed the sum of the employee’s salary and allowances for two biweekly pay periods, it may be purchased without requiring documentation of any kind from the departing employee.

If the amount of foreign currency presented exceeds the amount authorized to be purchased, as stated above, the employee presenting such currency should be required to submit a written application containing a statement describing the source of such currency and affirming that none of the currency presented was acquired in violation of local agency administrative regulations, or exchange control laws of the country concerned. The local officer in charge of the agency to which the employee is attached should approve the application.

The above provisions are subject to the further limitations in subsection 30145.20.

Accountable officers or authorized agents are empowered to repurchase foreign currencies (that is, perform a reverse accommodation exchange) from any person authorized to purchase foreign currencies through the accommodation exchange, provided the person is leaving the country and the amounts are subject to the limitations in subsection 30145.20.

30140.30—Precautions To Avoid Losses

Accountable officers or authorized agents must exercise extreme caution to avoid losses to the U.S. Government. If the person presenting a check to be cashed is not personally known by the accountable officer or authorized agent, that person must present identification credentials (for example, a passport). Checks and other instruments (drawn on U.S. banks) to be cashed should be made payable to the post; for example, U.S. Embassy, Paris, France; U.S. Consulate General, Monterrey, Mexico.

30145—Acquisition of Foreign Exchange

Federal agencies are encouraged to use ITS.gov to issue foreign currency payments electronically and to issue international U.S. dollar wire transfer payments. For more information on ITS.gov, see subsection 30115.10e or the FMS Web site at http://www.fms.treas.gov/itsgov.
30145.10—Exchange of U.S. Dollars for Foreign Currencies

Agencies (other than those specifically responsible for dealing with the value of the dollar in foreign exchange such as Treasury and the Federal Reserve) should avoid holding foreign currency balances in excess of immediate working requirements. When exchanging U.S. dollars for foreign currencies, agencies must observe the following guidelines that apply to exchanges:

- Agencies should conduct all exchange of dollars for foreign currencies for “spot” delivery (normally the purchase of foreign currencies for delivery in 2 business days). They may not use forward contracts or purchase at negotiated rates directly from foreign governments or private contractors (for example, individuals or foreign exchange houses) unless authorized by Treasury.

- Agencies should exchange U.S. dollars for foreign currencies at the time the foreign currency is needed for immediate funding requirements. Accountable officers should ensure that payment is made for foreign currency purchases on the value date.

- U.S. Government agencies must avoid any appearance of currency speculation in the exchange markets.

- The program agencies are responsible for any change in program costs resulting from the foreign currency denomination of international financial arrangements.

U.S. Government agencies should attempt to reduce exchange risks for the United States in international programs by taking steps to ensure that a larger portion of the program expenditures is in the United States, or financial arrangements are in U.S. dollars or dollar equivalents.

30145.20—Operating Account Balance Limitations

All accountable officers must ensure the amount of foreign exchange purchased with U.S. dollars (together with the balance on hand) is commensurate with immediate disbursing requirements, not to exceed a 5- to 7-business day supply, in order to:

- Minimize local currency operating bank balances;
- Minimize losses due to rate devaluations;
- Avoid premature drawdowns on balances.

This results in interest savings to the U.S. Government and has a favorable impact on the U.S. balance of payments. Agencies should keep balances in the local currency operating accounts on the bank’s books as close to a zero bank balance as possible without incurring overdrafts to the account. The accountable officer should adopt funding techniques or procedures to reduce the average account balance to the point where the additional administrative costs, lost volume discounts, and possible overdraft charges generated by further balance reductions would exceed any projected interest savings. Agencies should review the 5- to 7-business day needs for operating cash on a quarterly basis.

In certain situations, the administrative costs, local banking regulations, or possible volume discounts may override any interest savings or balance of payment considerations and may require procedures that are different than recommended above. In these situations, the accountable officer should purchase foreign exchange in an amount that, together with the projected or actual bank balance on hand on the value date, would not exceed the estimated drawdowns against the operating account for the ensuing 5 to 7 business days.

Departments and agencies may not exceed a 5- to 7-business day supply of funds in the operating account without a specific waiver of this requirement from Treasury. Agencies should conduct independent annual reviews of the balances to ensure only 5-to-7 day balances are maintained. The results of the review should be shared with Treasury.

30145.30—Acquisition of Foreign Exchange

Treasury purchases all foreign currency and funds Treasury approved local depository accounts through ITS.gov.

The accountable officer or authorized agent is empowered to purchase foreign exchange through accommodation exchange from individuals only in the manner and under the circumstances described in this TFM, from the Treasury, and from sources authorized by the government of the country concerned. The accountable officer or authorizing agent should retain documentation stating the particulars of the foreign exchange purchase from any source, including the rate at which the exchange was performed.

30145.40—Rate of Exchange for Purchase from Non-Government Sources

Agencies should acquire foreign exchange, when purchased from sources other than the U.S. Government, at the best rate available according to the laws of the country in which the exchange is to be expended.

30145.40a—Fixed Legal Rates

The best legal rate to the U.S. Government, depending upon the circumstances in each country, may be any officially established buying rate for dollars, including diplomatic rates or special rates established by agreement with the authorities of the country. When rates so fixed prevail, agencies should purchase foreign exchange at the best applicable rates to the particular transaction. They may effect purchases at fixed legal rates without the formality...
of obtaining bids, but the purchases should be evidenced by a statement over
the signature of the seller setting forth the pertinent data relative to the
purchase. This data includes the date, amount of purchase, and exchange rate.
The accountable officer or authorized
agent should retain the statement as a
supporting document with the monthly
accountability statements.

30145.40b—Nonfixed Legal Rates

When rates legally applicable to the
particular transaction are not fixed, or
when such rates are fixed but the use of
other rates also is legal for the particular
transactions, agencies should purchase
foreign exchange at the best obtainable
rates. When foreign exchange can be
purchased at nonfixed legal rates,
agencies should solicit bids from not less
than three sources, if available. The
accountable officer or authorized agent
should accept the bid quoting the most
beneficial legal exchange rate, if it is
more favorable than any legally fixed
rate. The accountable officer or
authorized agent should retain
documentation stating the most
beneficial bid, accepted and certified,
with the monthly accountability
statements.

Section 30150—Rate of Exchange
for Expenditures and
Accommodation Exchanges

Agencies should compute exchange
transactions for accommodation
purposes or for official expenditures to
avoid losses, due to fluctuations in
exchange rates, as much as possible.
Ordinarily, unless otherwise authorized
by Treasury, agencies should use the
prevailing rate of exchange to convert
foreign currency expenditures to U.S.
dollars for accounting purposes.

---

Section 30155—Collections and
Interest on Deposits

30155.10—Collections

Collections from foreign vendors or
entities may be processed through
ITS.gov, which transfers funds via
Fedwire to the Credit Gateway. The
Credit Gateway posts Fedwires to
agency accounts and sends SF 212
deposit vouchers to the Collection
Information Repository (CIR) for agency
deposit reporting. Agencies need to
contact the FMS ITS.gov staff by calling
816-414-2100 to receive specific
collection account instructions that are
based on the currency sent for the
collection.

30155.20—Unfunding

Unfunding is the authorized
borrowing by an accountable officer of
restricted foreign currency from specific
agency program accounts for the
purpose of meeting current U.S.
Government obligations, and replacing
the foreign currency when needed for the
purposes for which this foreign currency
was originally set aside. (Public Law 89-
677)

The unfunding process provides that,
when agencies receive foreign currencies
that are not immediately needed for
agency program expenditures, the
accountable officers or authorized agents
must unfund all affected program
accounts before purchasing foreign
currency commercially. To unfund all
affected accounts, the accountable
officer must reclassify funds using the
CARS Classification Transactions and
Accountability (CTA) module. Through
this process, the accountable officers:

- Credit agency program X7000
  accounts;
- Unfund the accounts through
  Treasury’s account 20X7900
  “Advances of Unfunded Foreign
  Currencies”;
- Use the funds for any U.S.
  Government expenditure;

AND

- Reimburse the program account
  when the foreign currency is
  required for the particular
  program intended.

If necessary to reimburse the
borrowed foreign currency, the
accountable officers may purchase the
foreign currency commercially with U.S.
dollars. It is important to note that these
foreign currencies credited to specific
agency program accounts are initially
acquired without the expenditure of U.S.
dollars. They may be host-government
contributions, loan repayments, etc. The
purpose of unfunding is twofold. It
makes use of foreign currency not
currently needed by the agency program
accounts and delays the expenditure of
U.S. dollars to purchase foreign
currency.

Additional information and
guidelines regarding unfunding are
contained in TFM Volume I, Part 2,
Chapter 3200, and TFM Volume I,
Bulletin No. 2001-07: Accounting for
and Reporting of Foreign Currency
Transactions and Balances.

30155.30—Disposition of Excess
Balances

Agencies should make an attempt to
transfer foreign currencies in excess of
immediate disbursing requirements to
other accountable officers (such as
military or State) for use in a particular
locality. Agencies may contact the U.S.
Embassies in these countries
concerning foreign currency acquisition.
Accountable officers having temporary
excess balances should initiate action to
effect transfers with other accountable
officers using like currencies. Agencies
should use the ITS.gov collection
module and indicate the TAS/BETC
when depositing funds to the TGA. They
must use the CARS CTA module to
reclassify funds deposited to the TGA
through ITS.gov. Agencies need to
contact the FMS ITS.gov staff by calling
816-414-2100 to receive specific
collections account instructions that are
based on the currency being sent in as collections.

30155.40—Interest on Deposits

Whenever possible, the accountable officer should obtain interest on the local currency checking account. However, the accounting officer should not maintain excessive balances to receive interest. Accountable officers must follow the procedures below.

If the collection of foreign currency causes a depositary account (for example, local currency checking account) to exceed a 5- to 7-business day supply and all attempts to sell currencies to other accountable officers have been exhausted, the accountable officer must sell the foreign currency for U.S. dollars and must deposit funds into the TGA using ITS.gov.

The accountable officer must monitor the interest-bearing accounts to ensure that interest is being credited on a timely basis and per agreements reached between the accountable officer and the banks. The accountable officer must credit the U.S. dollar equivalent of all interest earned on U.S. Government funds to Treasury’s miscellaneous receipt account 3220.

Section 30160—Disbursements

The rules governing domestic disbursements also are applicable to foreign exchange disbursements, including prompt payment provisions and CARS reporting.

Section 30165—Gains and Deficiencies

30165.10—Accounting for Gains and Deficiencies

Agencies compute gains or deficiencies on a monthly basis by applying gains to offset deficiencies to determine the amount of net gain or net deficiency. They maintain account 20_6763, “Gains and Deficiencies on Exchange Transactions,” to record gains and deficiencies of accountable officers, to determine the amount of net gain or net deficiency for each accounting month.

Agencies must report gains and deficiencies by recording these transactions as “reclass” in the CARS CTA module.

30165.20—Bad Check Transactions

When a bad check transaction results in the return of the instrument, the agency must report the amount of the instrument promptly as a deficiency to the disbursing officer. The accountable officer or authorized agent should immediately try to recover the equivalent amount of U.S. Government funds paid out on the instrument. If the accountable officer is successful, he/she should arrange to remit the amount recovered to the disbursing officer to offset the deficiency previously reported. If all efforts to recover the funds have been exhausted and are not successful, agencies may charge the deficiency to account 20_6763. The charge to the deficiency account must be recorded as a “reclass” in the CARS CTA module.

30165.30—Mutilated Foreign Currency

Accountable officers and authorized agents should take every possible precaution to prevent acceptance of mutilated foreign currency as a collection, payment, or an exchange transaction. If an accountable officer or authorized agent is holding mutilated foreign currency, he/she should make every effort to replace it through local banks or the host country’s central bank.

30165.40—Counterfeit Currency

Accountable officers and authorized agents should take every possible precaution to prevent acceptance of counterfeit currency as a collection. If the collection is counterfeit, see TFM Volume I, Part 5, Chapter 2000, Section 2040.

Section 30170—Authority To Disburse Imprest Funds

As a preliminary matter, before an agency contemplates establishing an imprest fund, the agency should first discuss that option with FMS to determine if an alternative approach might be more suitable, given the numerous different payment options FMS makes available to agencies at no charge.

An agency may proceed with plans to establish an imprest fund only if the agency can demonstrate that it has the legal authority to:

- Hold funds outside of Treasury;
- AND
- Make the anticipated payments using cash.

An agency must have legal authority to hold funds outside of Treasury because an imprest fund is a fixed cash or petty cash fund in the form of currency or coin that has been advanced to a cashier as “Funds Held Outside of Treasury.” Imprest funds are an exception to the general rule that Federal agencies receiving public money from any source are statutorily required to deposit these funds into the U.S. Treasury. See 31 U.S.C. § 3302. This exception arises in only three circumstances.

- First, “[i]n rare cases, a Federal agency may have statutory authority to hold money without depositing it to the U.S. Treasury.” (See TFM Volume I, Part 5, Chapter 4100, Section 4120, on the FMS Web site at http://www.fms.treas.gov/TFM/vol1/v1p5c410.pdf.)
- Second, an agency may have implied authority to hold funds outside of Treasury if it has explicit statutory disbursing authority (that is, if the agency would be permitted to make electronic payments through the
FRB and issue Treasury checks itself).

- **Third**, an agency may obtain a delegation of disbursing authority from Treasury’s CDO, if, for reasons of economy and efficiency, the CDO determines such a delegation would be appropriate. In the case of delegated disbursing authority, the extent of any authority to hold funds outside of Treasury is set forth in the delegation document. In addition to the authority to hold funds outside of Treasury, an agency must have legal authority to make the anticipated payments using cash. In general, all Federal payments are required to be made by EFT [31 U.S.C. § 3332(f)]. There are only certain circumstances in which payment by another means is legally authorized. The categories of payments encompassed by those circumstances are set forth in 31 CFR § 208.4. Only if the anticipated payments fall into one of the listed categories is the agency legally authorized to make them using cash. Also, if an agency deposits funds into a financial institution, that financial institution must be designated by Treasury to be a financial agent of the U.S. Treasury. Collateral is required if balances are greater than Federal Deposit Insurance Corporation insurance.

**Note:** Agencies that have been granted the authority to disburse imprest funds must classify imprest fund transactions using established and appropriate TAS/BETCs. The SAM Web site at https://www.sam.fms.treas.gov/sampublic provides FMS reference data for TAS/BETCs. If a default TAS/BETC is used to fund the impress account, the agency must reclassify each payment at the time of obligation using the TAS/BETC in the CARS CTA module. The default account must be cleared by the third workday after monthend or it negatively impacts the quarterly scorecard that is sent to agencies’ CFOs.

---

**Section 30175—Enclosures or Inserts With Treasury Checks**

**30175.10—Enclosures, Inserts, and Check Identification**

The invoice numbers or other identifying numbers shown on the payee’s billing form and the identification of the agency making the payment must be shown on the check at least two lines below the address. The FMS/DO issues the check directly from the information shown on the voucher-schedule (see the Contacts page).

A maximum of 6 inches of writing space (that is, two 3-inch lines) below the three lines required for the payee’s name and address is available for check identification information. However, this method of check identification should not be adopted until an agreement is reached, in writing, by the agency and vendors or payees concerning the exact references required on the check. In the absence of such an agreement, check identification information should not be shown on the voucher-schedules.

**30175.10a—Inserts Enclosed With Treasury Checks**

Agencies submitting requests for inserts to be enclosed with Treasury checks must adhere to the instructions in the following subsections concerning insert specifications and shipping addresses for insert delivery. Approval is granted only for program related inserts printed on tabulating cards and paper inserts. Write the message to be conveyed in general terms so that the matching of inserts with specific checks is not required. It is the primary responsibility of the agency to determine whether inserts are appropriate and program related. The CDO retains final authority on the language and content of all inserts enclosed with Treasury checks. To avoid unnecessary expenses, CDO approval should be obtained before entering printing contracts. Refer any questions or problems concerning inserts to the CDO, Attention: Resource Management Services Division.

**30175.10b—Mailing**

If an enclosure is approved, the CDO may require reimbursement for expenses involved in preparing and mailing the enclosure to payment recipients who do not receive checks such as those enrolled in the Direct Deposit program. The requesting agencies are responsible for payment of postage to the U.S. Postal Service for these mailings. As a less costly alternative to inserts, FMS offers the ability to print messages on the back of envelopes used to mail Treasury checks.

**30175.10c—Enclosure of Program Inserts**

FPAs that want enclosure of inserts must submit the requests sufficiently in advance of delivery of check issue data to allow for approval action, to stock enclosure supplies, and to make computer program changes when necessary. Normally, submission of requests is 6 weeks before delivery of check issue data, with earlier submission if programming changes are required. Letters of request must provide a sample of the insert, or a facsimile if a sample is not available, and must include the following information:

- Proposed enclosure numbers and titles;
- Type and size of enclosure;
- Date of checks;
- Class of payment;
- RFCs involved;
- Volume at each RFC (volumes should correspond to current payment figures, plus an additional 5 percent overage to cover spoilage);
- Total volume of enclosures;
- Delivery date;
AND
- Special enclosing instructions.

When an actual sample of the check insert is not provided with the request, any approval is conditional on inserts meeting the specifications as prescribed in this chapter. Insert requests must be submitted to the CDO for approval of both content and specifications.

DELEGATION OF AUTHORITY

Section I - DELEGATION AND RE-DELEGATION

In accordance with the authority vested in me by the head of this agency or his/her designee, I hereby delegate to the individual whose name, title and signature samples appear below the authority to:

- [ ] Designate Certifying Officers
- [ ] Other (Specify): ________________________________

Authority: ☐ MAY / ☐ MAY NOT Be Redelegated

Comments: ____________________________________________________________________________

TYPE OF DELEGATION OR REVOCATION ACTION: [CHECK ONE]

- ☐ ORIGINAL DELEGATION
- ☐ RE-DELEGATION
- ☐ REVOCATION

Section II - DESIGNEE

Full Legal Name: ____________________________________________

Title: ____________________________________________________________________________

Agency: ____________________________________________________________________________

Bureau: ____________________________________________________________________________

Division: ____________________________________________________________________________

Head of Agency: ☐ Yes / ☐ No

Effective Date: ______________________________________________________________________

Phone: ____________________________________________________________________________

Email: ____________________________________________________________________________

Section III - SIGNATURE SAMPLES OF DESIGNEE [Designee must sign within all 4 boxes in BLACK INK]

[Signature samples]

Section IV - DELEGATOR SIGNATURE [Delegator must sign within the box in BLACK INK]

Full Legal Name: ____________________________________________

Title: ____________________________________________________________________________

Agency: ____________________________________________________________________________

Bureau: ____________________________________________________________________________

Division: ____________________________________________________________________________

Email: ____________________________________________________________________________

Section V - RETURN ADDRESS OF DELEGATOR

Address: ____________________________________________

Transmittal No.: ____________________________________________

Accomplished Date: ____________________________________________

By: ____________________________________________

Section VI - To Be Completed by FMS

Transmittal No.: ____________________________________________

Accomplished Date: ____________________________________________

By: ____________________________________________
Instructions for Form FMS 2958

1. This form is for use in delegating individuals to have authority to designate individuals and/or re-delegate authority to the Financial Management Service. Such delegations/designations are valid for a period of two years from the effective date. At the end of that period they will expire, unless a re-delegation is submitted to the Financial Management Service. This form may be used for original delegations, re-delegations and revocations.

2. Only one individual may be delegated authority or revoked per form.

Section I
- More than one block may be checked for type of authority to be delegated.
- All Authority blocks should be checked for Head of Agency (HOA) Self-Delegations.
- For each block checked, authority to re-delegate must be indicated by checking either the “MAY” or “MAY NOT” block, for that item, as appropriate. Either the “MAY” or “MAY NOT” block must be checked for each type of delegation authority checked! For HOA Self-Delegations, the “MAY” block should be checked for ALL authorities.
- Enter pertinent information in the Comments field, such as Designee Name Change, etc.
- List all application(s) for which this delegation will be applicable.
- Check the appropriate block for “Type of Delegation or Revocation Action”. Only one block may be checked.
  - Check “Original Delegation” for new delegations.
  - Check “Re-Delegation” for renewals of existing delegations.
  - Check “Revocation” to revoke all authority that was originally delegated. If partial authority is to be retained from the original delegation, a new form FMS 2958 must be received re-delegating that authority.

Section II
- The Full Legal Name of the designee must be entered for designee name.
- The Head of Agency will be interpreted to mean the head of an Executive Agency, as appointed by the President. [Refer to the TFR, Part 4, Chapter 1100 for additional HOA information.] Only the HOA will check the “Yes” block and sign the signature boxes in Section III & IV to self-delegate. A signed letter on agency letterhead must also accompany this completed FMS 2958 indicating the individual is the Head of Agency.
- For “Effective Date” enter the date that the delegation is to be effective on. Delegations are good for a period of two years from the effective date. The actual effective date will be the latter of, the requested effective date and the date the delegation is actually accepted by FMS.

Section III
- Designee must sign within all four boxes.
- All signatures must be handwritten originals.
- Designee must sign in the same manner as he/she will be using on future documents to be submitted to FMS.

Section IV
- All forms FMS 2958 must be signed in this section by an authorized delegator, whose authority will be substantiated by FMS prior to processing of the action requested in Section I.
- Signature must be within the box and clear and legible, using BLACK INK for reproduction purposes.
- An accomplished copy of form FMS 2958 will be returned directly to the delegator, at the address specified in Section V.
- Delegators are cautioned to review accomplished copies to ensure no changes to form FMS 2958 have occurred between signature and acceptance by FMS.

Section V
- Must be completed to reflect the return address of the delegator signing in Section IV.

Section VI
- Will be completed by FMS.
- If accomplished date is later than the effective date, the accomplished date will become the effective date.
DESIGNATION FOR CERTIFYING OFFICER

Section I - DESIGNATION AND RE-DESIGNATION

In accordance with the authority vested in me by the head of this agency or his/her designee, I hereby delegate to the individual whose name, title and signature samples appear below the authority to act as a Certifying Officer (CO) for the following Agency Location Codes (ALCs):

[List Each ALC the CO is Authorized For:]

Section VI - To Be Completed by FMS

Transmittal No.: ___________________________

Accomplished Date: ___________________________

By: ___________________________
Instructions for Form FMS 210CO

1. This form is for use in designating Certifying Officers (CO) who will have authority to certify payment requests, for specific Agency Location Codes (ALCs), to the Financial Management Service, for payment. Such designations are valid for a period of two years from the effective date. At the end of that period they will expire, unless a re-designation is submitted to the Financial Management Service. This form may be used for original designations, re-designations and revocations.

2. Only one individual may be designated authority or revoked per form.

Section I
- List all Agency Location Codes (ALCs) that the designee will have authority to certify payments for.
- Enter pertinent information in the Comments field, such as Designee Name Change, FPAID, etc.
- List all application(s) for which this designation will be applicable.
- Check the appropriate block for "Type of Designation or Revocation Action". Only one block may be checked.
  - Check "Original Designation" for new designations.
  - Check "Re-Designation" for renewals of existing designations.
  - Check "Revocation" to revoke all authority that was originally designated. If partial authority is to be retained from the original designation, a new form FMS 210CO must be received re-designating that authority.

Section II
- The Full Legal Name of the designee must be entered for designee name.
- For "Effective Date" enter the date that the designation is to be effective on. Designations are good for a period of two years from the effective date. The actual effective date will be the latter of, the requested effective date and the date the designation is actually accepted by FMS.

Section III
- Designee must sign within all four boxes.
- All signatures must be handwritten originals.
- All signatures must be clearly legible in BLACK INK for reproduction purposes.
- Designee must sign in the same manner as he/she will be using on future documents to be submitted to FMS.

Section IV
- All forms FMS 210CO must be signed in this section by an authorized designator, whose authority is substantiated by a valid form FMS 2658, on file with FMS.
- Signature must be within the box and clear and legible, using BLACK INK for reproduction purposes.
- An accomplished copy of form FMS 210CO will be returned directly to the designator, at the address specified in Section V.
- Designators are cautioned to review accomplished copies to ensure no changes to form FMS 210CO have occurred between signature and acceptance by FMS.

Section V
- Must be completed to reflect the return address of the designator signing in Section IV.

Section VI
- Will be completed by FMS.
- If accomplished date is later than the effective date, the accomplished date will become the effective date.
**DESIGNATION FOR SPS DATA ENTRY OPERATOR**

**Section I - DESIGNATION AND RE-DESIGNATION**

In accordance with the authority vested in me by the head of this agency or his/her designee, I hereby delegate to the individual whose name, title and signature samples appear below the authority to act as a SPS Data Entry Operator (DEO) for the following Agency Location Codes (ALCs):

Instructions for Form FMS 210DEO

1. This form is for use in designating Data Entry Operators (DEO) who will be responsible for payment schedule creation and editing using the Secure Payment System (SPS). Such designations are valid for a period of two years from the effective date. At the end of that period they will expire, unless a re-designation is submitted to the Financial Management Service (FMS). This form may be used for original designations, re-designations and revocations.

2. Only one individual may be designated authority or revoked per form.

Section I
- List all Agency Location Codes (ALCs) that the designee will have authority to create and edit payments for.
- Enter pertinent information in the Comments field, such as Designee Name Change, etc.
- Check the appropriate block for “Type of Designation or Revocation Action”. Only one block may be checked.
  - Check “Original Designation” for new designations.
  - Check “Re-Designation” for renewals of existing designations.
  - Check “Revocation” to revoke all authority that was originally designated. If partial authority is to be retained from the original designation, a new form FMS 210DEO must be received re-designating that authority.

Section II
- The Full Legal Name of the designee must be entered for designee name.
- If this is an established SPS entity, enter the FPAID for which the designee will be creating/editing payments.
- For “Effective Date” enter the date that the designation is to be effective on. Designations are good for a period of two years from the effective date. The actual effective date will be the later of, the requested effective date and the date the designation is actually accepted by FMS.

Section III
- Designee must sign within all four boxes.
- All signatures must be handwritten originals.
- All signatures must be clearly legible in BLACK INK for reproduction purposes.
- Designee must sign in the same manner as he/she will be using on future documents to be submitted to FMS.

Section IV
- All forms FMS 210DEO must be signed in this section by an authorized designator, whose authority is substantiated by a valid form FMS 2868, on file with FMS.
- Signature must be within the box and clear and legible, using BLACK INK for reproduction purposes.
- An accomplished copy of form FMS 210DEO will be returned directly to the designator, at the address specified in Section V.
- Designators are cautioned to review accomplished copies to ensure no changes to form FMS 210DEO have occurred between signature and acceptance by FMS.

Section V
- Must be completed to reflect the return address of the designator signing in Section IV.

Section VI
- Will be completed by FMS.
- If accomplished date is later than the effective date, the accomplished date will become the effective date.
### DESIGNATION FOR AGENT TO RECEIVE & DELIVER CHECKS

#### Section I - DESIGNATION AND RE-DESIGNATION

In accordance with the authority vested in me by the head of this agency or his/her designee, I hereby delegate to the individual whose name, title and signature samples appear below the authority to act as a Designated Agent (DA) for the following Agency Location Codes (ALCs):

[LIST EACH ALC THE DA IS AUTHORIZED FOR]

Comments:

Instructions for Form FMS 210DA

1. This form is for use in designating Designated Agents (DA) who will have authority to receive checks, for specific Agency Location Codes (ALCs), from the Financial Management Service (FMS) for delivery to the payee(s). In accordance with provisions of Executive Order 6166, as amended (5 U.S.C. 901 note), authority is hereby delegated to the individual named on the form FMS 210DA to act as agent of the disbursing officer for the purpose of receiving and distributing such checks. The DA will be guided by the instructions printed below and such other instructions as may be directed to him/her from time to time.

2. Such designations are valid for a period of two years from the effective date. At the end of that period they will expire, unless a re-designation is submitted to the Financial Management Service (FMS). This form may be used for original designations, re-designations and revocations.

3. Only one individual may be designated authority or revoked per form.

Section I
- List all Agency Location Codes (ALCs) that the designee will have authority to receive checks.
- Enter pertinent information in the Comments field, such as Designee Name Change, etc.
- Check the appropriate block for "Type of Designation or Revocation Action". Only one block may be checked.
  - Check "Original Designation" for new designations.
  - Check "Re-Designation" for renewals of existing designations.
  - Check "Revocation" to revoke all authority that was originally designated. If partial authority is to be retained from the original designation, a new form FMS 210DA must be received re-designating that authority.

Section II
- The Full Legal Name of the designee must be entered for designee name.
- Enter the Title of the designee.
- For "Effective Date" enter the date that the designation is to be effective on. Designations are good for a period of two years from the effective date. The actual effective date will be the latter of, the requested effective date and the date the designation is actually accepted by FMS.

Section III
- Designee must sign within all four boxes.
- All signatures must be handwritten originals.
- All signatures must be clearly legible in BLACK INK for reproduction purposes.
- Designee must sign in the same manner as he/she will be using on future documents to be submitted to FMS.

Section IV
- All forms FMS 210DA must be signed in this section by an authorized designator, whose authority is substantiated by a valid form FMS 2658, on file with FMS.
- Signature must be within the box and clear and legible, using BLACK INK for reproduction purposes.
- An accomplished copy of form FMS 210DA will be returned directly to the designator, at the address specified in Section V.
- Designators are cautioned to review accomplished copies to ensure no changes to form FMS 210DA have occurred between signature and acceptance by FMS.

Section V
- Must be completed to reflect the return address of the designator signing in Section IV.

Section VI
- Will be completed by FMS.
- If accomplished date is later than the effective date, the accomplished date will become the effective date.
**Designated Agent Instructions**

1. Under this delegation, checks will be forwarded to you, the Designated Agent, for distribution in accordance with the following instructions:  

   (a) Checks **shall not be delivered to payees prior to the issuance date** appearing on them; however, they may be mailed as authorized in (b) prior to the issuance date, if it is determined that delivery will not be made before that date.  

   (b) Checks shall be delivered personally by the Designated Agent, or by responsible personnel of the agency, to individual employees. In case of emergency or where an employee is absent on leave, mailing requests may be honored subject to agency administrative approval. Any other mailing of checks is subject to waiver requirements outlined in TFM 4-2000.  

   (c) The individual named IS NOT AN AUTHORIZED CERTIFYING OFFICER AND IS NOT CONNECTED WITH THE PREPARATION OF THESE CHECKS.  

   (d) The insertion of an address on the face of a check forwarded to the Designated Agent for delivery, or the correction of any data shown IS NOT AUTHORIZED.  

   (e) In most cases of emergency or where an employee is absent on leave and a check is to be mailed, a check size insert should be prepared. The insert should be enclosed with the check in such manner that the name and address will appear in the window of the envelope. A duplicate of this insert or other suitable record shall be maintained to indicate the address to which the check has been mailed. In mailing checks, disbursing check envelopes should be obtained from the issuing disbursing office (RFC). Checks are to be mailed in a check envelope.  

   (f) No check shall be delivered personally or by mail to an employee leaving the service until it has been determined that the employee is entitled to the full proceeds of a check or if any part of the information appearing on it is erroneous, the check will be returned to the issuing disbursing office (RFC) with a notation to that effect.  

   (g) Checks which should not, or cannot, be delivered by the Designated Agent in accordance with these instructions will be returned to the issuing disbursing office (RFC) within 5 days after receipt. The only exception is when employees are on leave, checks may then be held for 30 days. All checks shall be kept in a combination lock safe or locked fireproofed cabinet pending distribution or return to the issuing disbursing office (RFC). Checks returned to the issuing disbursing office (RFC) will be accompanied by a statement giving the reason for this return.

2. If the Designated Agent or an agency messenger calls at the disbursing office (RFC) for checks, signature acknowledgements of receipt will be required. Before release of checks to a messenger, it will be necessary that the Designated Agent’s written request for delivery contain both signatures and be filed with the disbursing office (RFC). The disbursing offices (RFCs) will not ordinarily require acknowledgement for receipt of checks mailed to the Designated Agent for distribution.

Instructions to Designated Agent

1. Under this delegation, checks and bonds will be forwarded to you, the designated agent, for distribution in accordance with the following instructions:

(a) Checks and/or bonds shall not be delivered to payees prior to the issuance date appearing on them, however, they may be mailed as authorized in (b) prior to the issuance date, if it is determined that delivery will not be made that date.

(b) Checks shall be delivered personally by the designated agent, or by responsible personnel of the agency, to individual employees. In case of an emergency or where an employee is absent on leave, mailing requests may be honored subject to agency administrative approval. Any other mailing of checks is subject to waiver requirements outlined in 1 TFM 4A-3000.

(c) Bonds shall be delivered personally by the designated agent, or by responsible personnel of the agency, to individual employees. Bonds which are issued from non-computer generated media and which must be verified with agency records before release may be remailed, as applicable. Bonds which are issued from computer generated media may be mailed in cases of emergency or where an employee is absent on leave; however, these mailing arrangements are subject to agency administrative approval. Any other mailing of bonds is subject to waiver requirements outlined in 1 TFM 4A-3000.

(d) The insertion of an address on the face of a check or bond forwarded to the designated agent for delivery, or the correction of any data shown is not authorized.

(e) In those cases of emergency where an employee is absent on leave and a check is to be mailed, a check size insert should be prepared. The insert should be enclosed with the check in such manner that the name and address will appear in the window of the envelope. A duplicate of this insert or other suitable record shall be maintained to indicate the address to which the check has been mailed. When a bond is to be mailed, a mailing envelope with window should be used. When a bond is to be mailed to a person other than the owner; an insert showing the name and address should be placed in front of the bond. A record of all bonds mailed should also be maintained preferably through appropriate notations on the subscriber lists or issuance schedules. In mailing checks and bonds, disbursing check or bond envelopes should be obtained from the issuing disbursing office. It is permissible to mail checks and bonds in a bond envelope; however, where checks alone are to be mailed, they shall be mailed in a check envelope.

(f) No check or bond shall be delivered personally or by mail to an employee leaving the service until it has been determined that the employee is entitled to the full proceeds. If it develops that an employee is not entitled to the full proceeds of a check or bond or if any part of the information appearing on it is erroneous, the check or bond will be returned to the issuing disbursing office with a notation to that effect.

(g) Checks and bonds which should not, or cannot, be delivered by the designated agent in accordance with these instructions will be returned to the issuing disbursing office within 5 days after receipt. The only exception is when employees are on leave; checks and bonds may then be held for 30 days. All checks and bonds shall be kept in a combination lock safe or locked fireproofed cabinet pending distribution or return to the issuing disbursing office. Checks and bonds returned to the issuing disbursing office will be accompanied by a statement giving the reason for their return.

2. If the designated agent or an agency messenger calls at the disbursing office for checks and bonds, signature acknowledgement of receipt will be required. Before release of checks to a messenger, it will be necessary that the designated agent’s written request for delivery contain both signatures and be filed with the disbursing office. The Disbursing Offices will not ordinarily require acknowledgement for receipt of checks and bonds mailed to the designated agent for distribution.
